Profile summary

Dynamic Angular Developer | Front-End Specialist | Agile Enthusiast

Results-driven Angular Developer with over 2 years of experience in front-end development, specializing in Angular 12+, JavaScript, and TypeScript. Adept at building scalable, high-performance web applications with a strong focus on security, performance optimization, and UX/UI design.

Proven track record in leading cross-functional teams, architecting RESTful APIs, and implementing OAuth and JWT authentication to enhance security. Expertise in lazy loading, code splitting, and state management (NgRx), resulting in improved system performance and reduced load times.

Adept at Agile and Scrum methodologies, mentoring junior developers, and driving innovation through best coding practices, Git workflows, and CI/CD pipelines. Recognized for delivering high-quality work with minimal supervision, achieving 95%+ customer satisfaction ratings, and enhancing team productivity.

Passionate about secure data encryption, compli

Skills

Angular 12+   TypeScript   RxJS   NgRx   JavaScript (ES6+)   HTML5 & CSS3   Angular Material

Tailwind CSS   Web Development   RESTful APIs   OAuth2 & JWT Authentication   Secure Coding Practices

UI/UX Design   Web Scraping   Performance Optimization   Product Analysis   Web Analytics

Work Experience

Software Developer — ConnectWise	Sep 2022 - Present

🔷 Frontend Development:
Developed and maintained web applications using Angular 12+, TypeScript, and JavaScript (ES6+).
Implemented RxJS and NgRx for state management and reactive programming.
Designed reusable UI components using Angular Material and Tailwind CSS.
🔷 API Integration & Authentication:
Integrated RESTful APIs for seamless data exchange between frontend and backend.
Worked on OAuth2.0 & JWT Authentication for secure user sessions.
🔷 Performance Optimization & Security:
Improved application performance through lazy loading, AOT compilation, and caching strategies.
Followed secure coding practices to prevent vulnerabilities like XSS and CSRF.
🔷 Collaboration & Agile Workflow:
Worked in an Agile environment, participating in sprint planning, code reviews, and daily stand-ups.
Used Git, Jira, and CI/CD pipelines for version control and deployment automation.

Education

B.Tech/B.E. | Electronics/Telecommunication   2019
Nandha Engineering College, Erode
Grade - undefined/10

12th   2015
